Set up authenticator app

An authenticator app is an application running on your device that you can configure by scanning a QR code.

1. Install a compatible application such as Google Authenticator, Duo Mobile, or Authy app on your mobile device or computer.
   See a list of compatible applications

2. 
   Open your authenticator app, choose Show QR code on this page, then use the app to scan the code.
   Alternatively, you can type a secret key.
   (Show secret key)

3. Enter two consecutive codes from your authenticator app. Enter the first code, wait a few seconds and then enter the second.

   First code

   6 digit code

   Second code

   6 digit code
